

Act in Niche & Global Market

Yamauchi corp.
Corporate Profile

YAMAUCHI CORP.

Yamauchi supports the world's leading manufacturers with advanced technologies.

The Yamauchi brand is not a household name, but the world's leading manufacturers all know the extraordinary level of our quality. A large number of revolutionary products have earned the support of the world's manufacturers, such as the world's first urethane roll for papermaking and high-performance cushioning material for press use. Our fields of expertise are rapidly expanding, beyond national borders and industries. We are growing globally, through technologies and concepts that are the "only ones" existing worldwide.

"Niche & Global" development describes our corporate strategy.

▶ Photocopiers and printers use high-performance rollers and belts for realizing high image quality and stable paper transport.

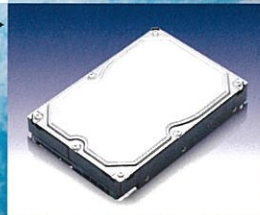

◀ Optical disc drives that read delicate signals use vibration isolation rubber to absorb external vibrations and impacts.

◀ Digital still cameras and video cameras require dampers with superb sound insulating performance as well as dust-proof rubber.

▶ Hard disks in computers and blu-ray recorders require clean, ultra-accurate precision parts.

▲ Spinning techniques have been refined in a long history of textiles. This advancement has been bolstered by high reliable parts for textile machines.

▲ ATMs at banks must transport and dispense bills reliably. To that end, they incorporate high-precision torque limiters.

▶ Technological innovation is promoted for rolls and belts used in paper-making machines in order to boost productivity.

▲ Smartphones use vibration isolation rubber with superb shock absorbing performance to protect the LCD in the event they are accidentally dropped.

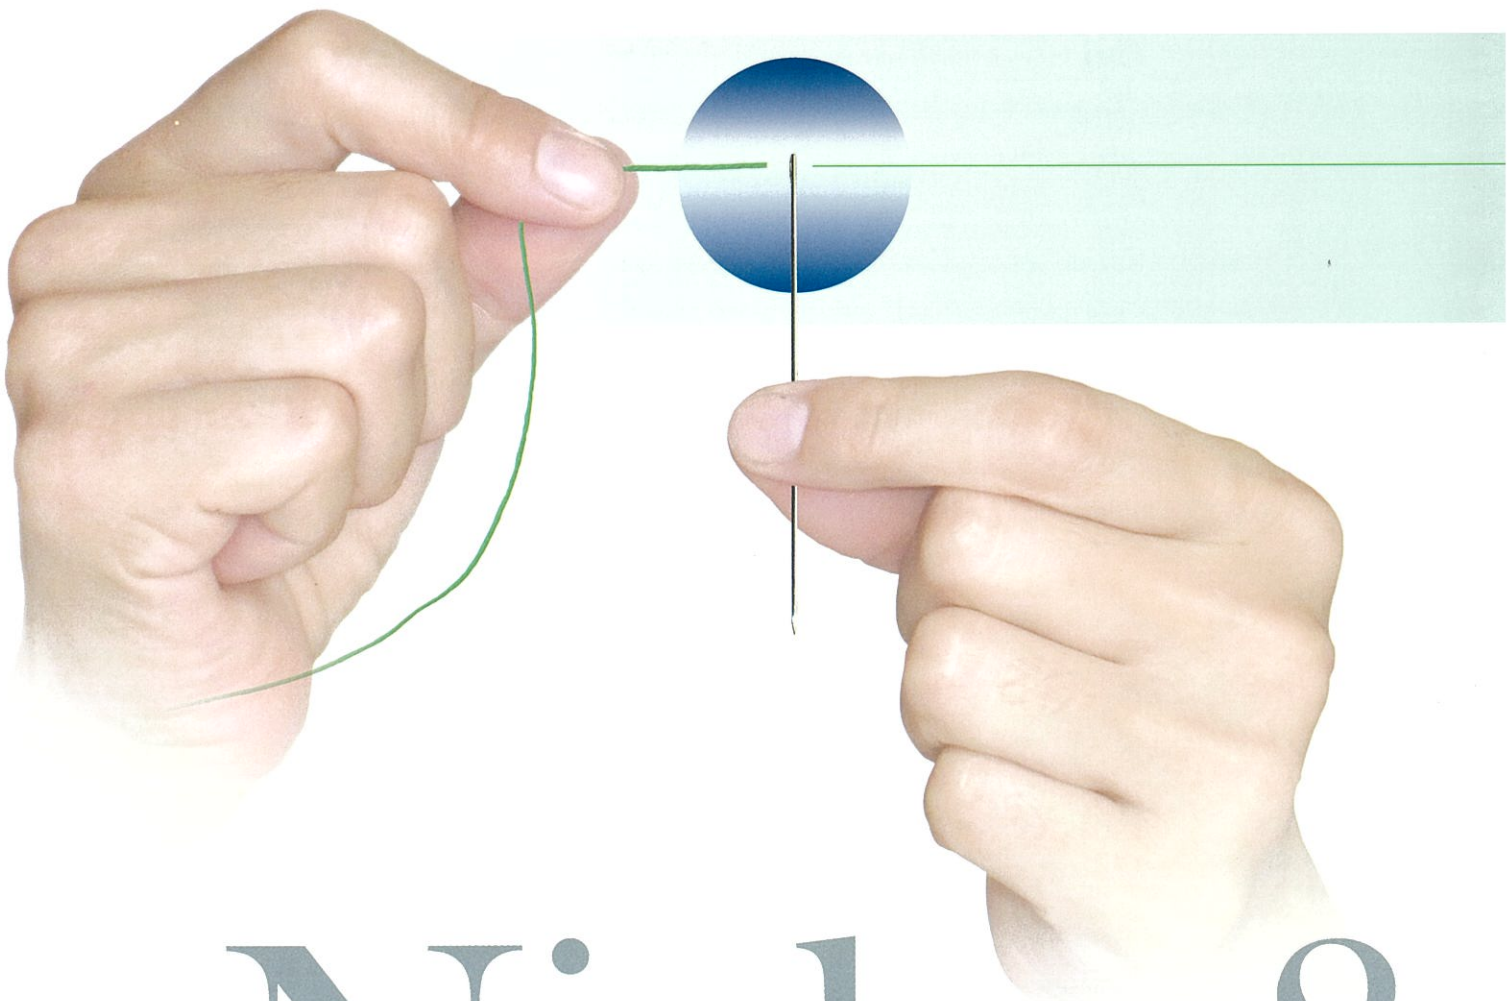

▶ Home appliances, such as washing machines, refrigerators and air conditioners, use many rubber parts for insulating vibration, minimizing operating noise and reducing power consumption.

Global

**Some tasks, like threading a needle,
are delicate and difficult.**

Producing high-precision parts for hard-disk drives is a good example of such a task, as it requires micron-level accuracy. Yamauchi technology plays an extremely important role in tasks such as these. Yamauchi enjoys an excellent reputation for industrial components formed from resin and rubber. And our world-leading technologies and experience give us a competitive strength that other companies simply cannot match.

Niche &

From precision parts to large-scale factory units. Our business fields are many and diverse.

You might be surprised to see the variation of our product line. It extends from high-precision resin parts that are only 2 mm in diameter to papermaking rolls that are 11 meters in length. They all originate from Yamauchi's innovative technology. Our mission is to create the performance and functions that our customers require by tapping into our vast store of new technologies. And our activities are quickly expanding, into new industries and new markets.

Technology

For Precision Equipment

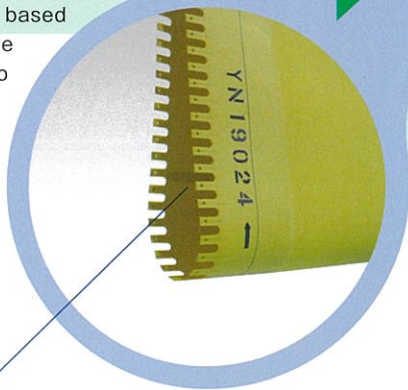

The resin part in the photo is used in hard disk drives that demand high precision in the micron range. Yamauchi is one of the leading manufacturers in Japan for parts that meet stringent standards.

Material

For Large Paper-Making Machines

Rolls and belts created based on Yamauchi's extensive experience contribute to stable production operations and cost reductions.

Reliability

For Electronic Equipment

Yamauchi's wide-ranging knowledge of materials and its processing technology are maximized in the field of advanced electronic equipment, such as photocopiers and printers.

Unique Yamauchi Features

- ① **YQR (Yamauchi Quick Response)** After receiving a customer request, we produce a rubber prototype in three days, including simulation, making the die and molding, and delivery.
- ② **Production of products with superb functions and high quality** To respond to advanced specification requirements, such as vibration isolation, impact strength, heat resistance and torque, we use synthetic rubber and other unique materials.
- ③ **Worldwide network** We have established an extensive network of manufacturing facilities mainly in China and Southeast Asia to produce products at locations near the customer.
- ④ **Production backed by TPM activities** We have conducted TPM (Total Productive Maintenance) activities for more than 20 years.

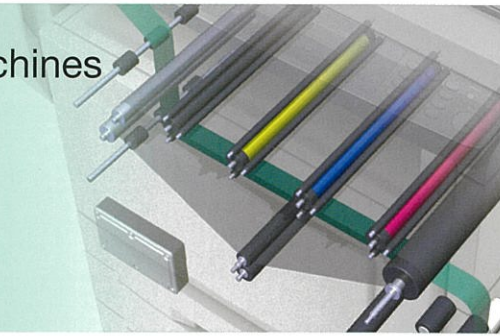

These activities will continue to enhance our corporate quality by raising employee expertise and improving facilities.

- ⑤ **I&C (Innovation and Communication)** We conduct sales and development activities to quickly respond to customers' needs and requirements. These activities include the development of innovative processes and the setup of manufacturing facilities and factories.
- ⑥ **Environment-conscious production** In addition to our compliance with the RoHS Directive and REACH Regulation, we have become a Sony Green Partner and have received certification for meeting the Green Procurement Standards of companies such as Ricoh, Fuji Xerox, Panasonic and Canon.

Multi-function machine/printer/digital printing machines

Various types of roller, belt, torque limiter and others for multi-function machine, printer and digital printing machines.

Transfer roller/drive roller/development roller/conveyance /feed roller
Retard roller for ADF(Automatic document feed)/Conveyance belt/Hysteresis torque limiter

Molded parts for medical devices

Manufacturing molded parts for medical devices in compliance with GMP standards in clean room and pest control environments.

Video/audio

Dustproof rubber, Microphone dampers and Drive belts for DVD/CD player, digital camera, game consoles and others.

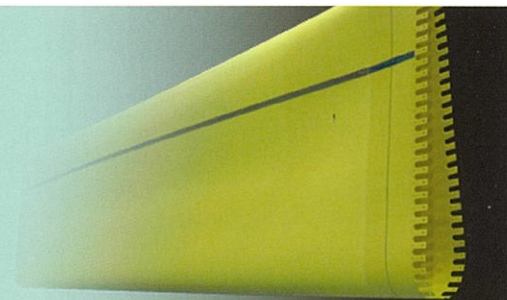

Vibration isolation rubber (damper, insulator)/
Mic damper/anti-dust rubber/drive belt

Papermaking

Wide range of rolls and belts for each part of papermaking process.

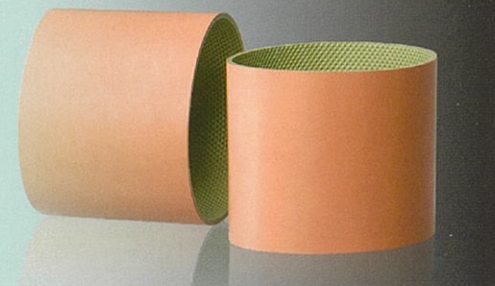

Shoe press belt/Urethane roll/Calendar roll/Expander roll/
Air shaft/Ceramic roll

Spinning

Wide variation of Aprons and rollers for spinnings and roving frames

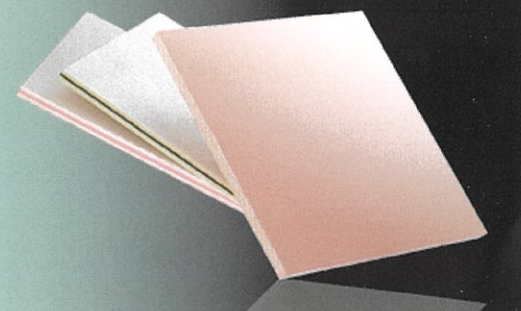

Apron/Roller/Cot/Urethane disc

Home appliances/Laminates/ Constructions and others

Cushion pads used in the hot press process for manufacturing PCB (Printed Circuit Board), FPC (Flexible Printed Circuits), Cards and fuel battery Cells.

YOM/Top Board (Cushion materials)

■ Corporate profile

For nearly a century since its foundation in 1918, Yamauchi has been contributing to society as a company that specializes in the manufacture of industrial rubber and plastic products. Today, Yamauchi supplies high-quality industrial parts to

manufacturers of various products in diverse fields, such as audio and visual products, copy machines, printers, disk drives, papermaking machines and textile machines. In recent years, the company has begun developing a number of prod-

ucts that may well become global standards. To respond to a wide range of needs of manufacturers around the world, Yamauchi conducts dynamic business activities in collaboration with other Yamauchi Group Companies.

List of Domestic Business Sites

Osaka

Head Office 2-7, Shodai-tajika, Hirakata, Osaka 573-1132
[TEL] 81-728-56-1130
[FAX] 81-728-68-3310

Hirakata Factory 2-7, Shodai-tajika, Hirakata, Osaka 573-1132
[TEL] 81-728-56-1147
[FAX] 81-728-56-2250

Osaka Sales Office 2-7, Shodai-tajika, Hirakata, Osaka 573-1132
[TEL] 81-728-56-1131
[FAX] 81-728-67-1549

Kyoto

Kyoto Osadano Factory 2-62-1, Osadano-cho, Fukuchiyama-shi, Kyoto 620-0853
[TEL] 81-773-27-5141
[FAX] 81-773-27-5449
ISO 14001-certified factory
ISO9001-certified factory

Tochigi

Kanuma Factory 11-2, Satsuki-cho, Kanuma-shi Tochigi 322-0014
[TEL] 81-289-76-2101
[FAX] 81-289-76-2106

Tokyo

Tokyo Sales Office Tekko Building 10th Floor, 1-8-2, Marunouchi, Chiyoda-ku, Tokyo 100-0005, JAPAN
[TEL] 81-362-13-1357
[FAX] 81-362-13-0407

List of Overseas Business Sites

Singapore

YAMAUCHI SINGAPORE PTE. LTD. 514 Chai Chee Lane #02-13, Singapore 469029, Singapore
[TEL] 65-6449-4366
[FAX] 65-6449-7618

Business Lines

Manufacturer and sales of precision molded resin parts.

Malaysia

YAMAUCHI MALAYSIA SDN. BHD. PLO 138, Senai Industrial Area, Phase III 81400 Senai Johor Darul Takzim, Malaysia
[TEL] 60-7-5993335/6
[FAX] 60-7-5993337

Business Lines

Manufacture of drive/vibration-resistant parts for home appliances and digital AV equipment, drive/transport/function parts for office machines and OA equipment, Manufacture and sales of textile machine parts.

China/Shenzhen

山内精密電子(深圳)有限公司 YAMAUCHI PRECISION SHENZHEN LTD.

Floor 1, building1, No.4, Yuangao Road, Xinshi community, Dalang street, Longhua District, Shenzhen, China
[TEL] 86-755-83726626
[FAX] 86-755-83726656

Business Lines

Manufacture of drive/transport/function parts for office machines and OA equipment, Precision molded resin parts, rubber cushion parts, magnetic clutch parts, etc.

China/Shanghai

山内精密電子(深圳)有限公司 上海分公司 YAMAUCHI PRECISION SHENZHEN (SHANGHAI BRANCH) LTD.

Room 37, 5F, Gubei International Fortune Center 2nd Phase, 1438 Hongqiao Road, Changning District, Shanghai 201103 P.R. of China
[TEL] 86-21-6197-6338

Business Lines

Sales of rolls and belts for papermaking equipment, lamination materials.

Belgium

YAMAUCHI CORP. N.V. (BELGIUM) Diepenbekerweg 1, 3500 Hasselt, Belgium
[TEL] 32-11-233061
[FAX] 32-11-235969

Business Lines

Manufacture and sales of molded-resin parts, and sales of rolls and belts for papermaking equipment, lamination materials and textile machine parts.

U.S.A.

YAMAUCHI (U.S.A.) CORPORATION

One Woodfield Place, Suite 320 1701 E. Woodfield Road Schaumburg, IL 60173, U.S.A.
[TEL] 1-847-807-2880
[FAX] 1-847-619-5799

Business Lines

Sales of rolls and belts for papermaking equipment, lamination materials and textile machine parts.

Korea/Seoul

YAMAUCHI (SEOUL OFFICE) CORPORATION

2108 Ho, Hyundai 41 Tower Mok 1-Dong, Yangcheon-Gu, Seoul, Korea
[TEL] 82-2-2061-7047/8
[FAX] 82-2-2061-7049

Business Lines

Support for sales of parts for electric home appliances, Digital/AV equipment and office machines, rolls and belts for papermaking equipment, lamination materials and textile machine parts.

Hongkong

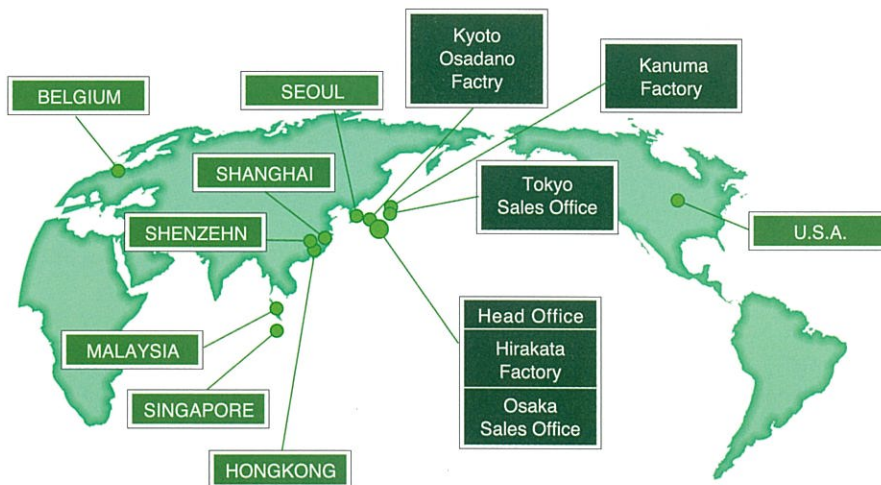

YAMAUCHI HONGKONG LTD.

RM.1404, Nan Fung Commercial Centre, 19 Lam Lok St., Kowloon Bay, Kowloon, Hongkong
[TEL] 852-2795-8278
[FAX] 852-2795-0945

Business Lines

Sales of drive/transport parts for office machines and OA equipment, resin parts for HDD, drive/vibration-resistant parts for digital/AV equipment, etc.
